Instructor Spotlight

Mike Harrington, C.M. Harrington Co., has been serving as a training specialist on behalf of manufacturers, distributors, state training centers, community colleges and water/wastewater associations serving the small to midsize water/wastewater facility since 1996. Since 1990, Mike has given over 500 training workshops, seminars, classes, etc. on behalf of AWWA, WEA and NRW state affiliates.

DELAWARE RURAL WATER ASSOCIATION CORPORATE SPONSORS

Delaware Rural Water Association Presents:

Common-Sense 21st Century Fluoridation Practices

Tuesday, July 18th 2023

Current Fluoridations practices are under close scrutiny by the general public, academic and through the media. Through superb, simplified graphics this workshop explores the history of Fluoridation, common misconceptions and responses. We will explore ways to minimize the Fluoride dose while maximizing the residual Fluoride in water. Learn the best practices to maintain a consistent dose. View current dosing systems and find the appropriate chemical dosing structure. Explore residual measurements and learn some key tools for reliable, repeatable and accurate residual results. Learn why something as simple as Fluoride-Free distilled/deionized water is so important; and why glassware can "make-or-break" your Fluoride test.

Time: 9:00am-4:00pm

ECH: 6.0 Hrs. Water - Direct

Location: DRWA Training Facility
210 Vickers Drive
Milford, DE. 19963

Cost: FREE - Funded By EPA

Instructor: Mike Harrington,
C.M. Harrington Corporation
