Delaware Rural Water Association (DRWA) is an affiliate of the National Rural Water Association whose headquarters is in Duncan, Oklahoma. Our programs are funded through Federal and State funds and membership.

DRWA is a membership oriented association which is a non-profit corporation governed by a Board of Directors from rural water systems in Delaware. With increased regulations and fewer funding sources, it becomes more critical that our systems be actively involved in the legislative process. Be involved in rural water!

We do not sell any products or promote one product over another. We provide unbiased help to small rural water and wastewater systems regarding products and the suppliers that provide those products.
