Instructor Spotlight

Ed Hallock worked in the Division of Public Health for 33+ years, retiring in 2017. He began his public health career in the Division of Public Health, Office of Food Protection in 1983. In 1986, he accepted the job in the Office of Sanitary Engineering drinking water program. Following his time there, Ed became Program Manager for the Office of Drinking Water in 1991 and Program Administrator in 1999. Over the years, Ed has held several positions within NDWAC, ASDWA & AWWA. In 2016, Ed was the winner of the AWWA George W. Fuller Award for distinguished service in the water supply field.

We appreciate the time Ed has offered to DRWA and look forward to having him share his knowledge with our class!

Delaware Rural Water Association Presents:

DRC's Responsibilities & Understanding Compliance During the Sanitary Survey Inspection Process in Evaluating Water System Sanitary Risks

Thursday, March 16th 2023

The DRC of your system must know what is involved when the State EHS shows up to conduct the Sanitary Survey Inspection. This class will review the eight (8) areas that the EHS will be looking at when an inspection occurs and will give you a thorough understanding of all the terminology & different processes which may compromise compliance in your water system such as the treatment process, storage and distribution. The EHS shall describe the potential threats as well as water quality issues during the sanitary survey inspection. The sanitary risk survey will insure the delivery of clean, safe drinking water to your customers.

Time: 9:00 am - 12:00 pm
ECH's: 3.0 Hrs. W - TBD
Cost: FREE - Funded By EPA
Location: DRWA Training Facility
210 Vickers Drive
Milford, DE. 19963
Instructor: Ed Hallock

PLEASE NOTE: CLASS LIMIT IS 40
